

# SAFEGUARD CRIME REPORT - SEPTEMBER 2019

## SEPTEMBER 2019 OVERVIEW

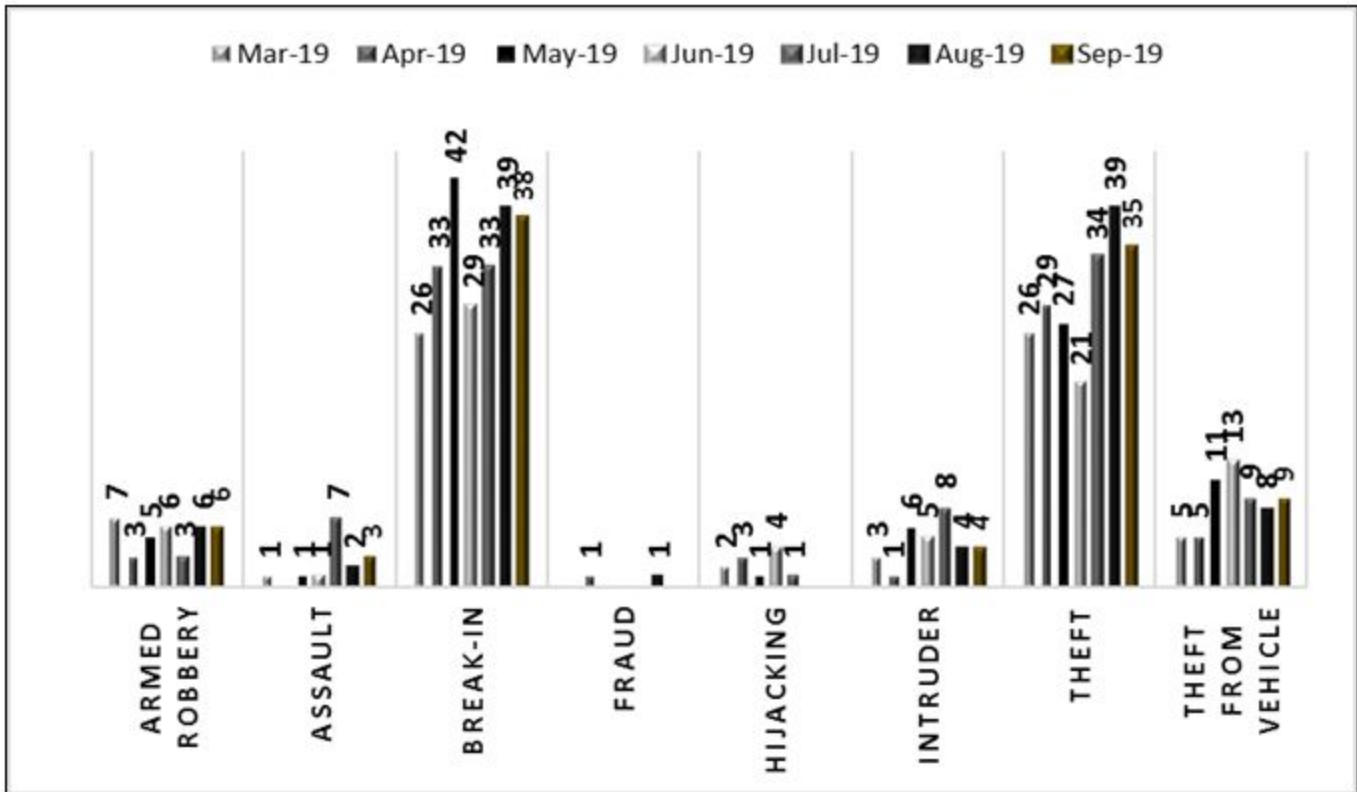

### NATIONWIDE CRIME OVERVIEW, MARCH 2019 – SEPTEMBER 2019

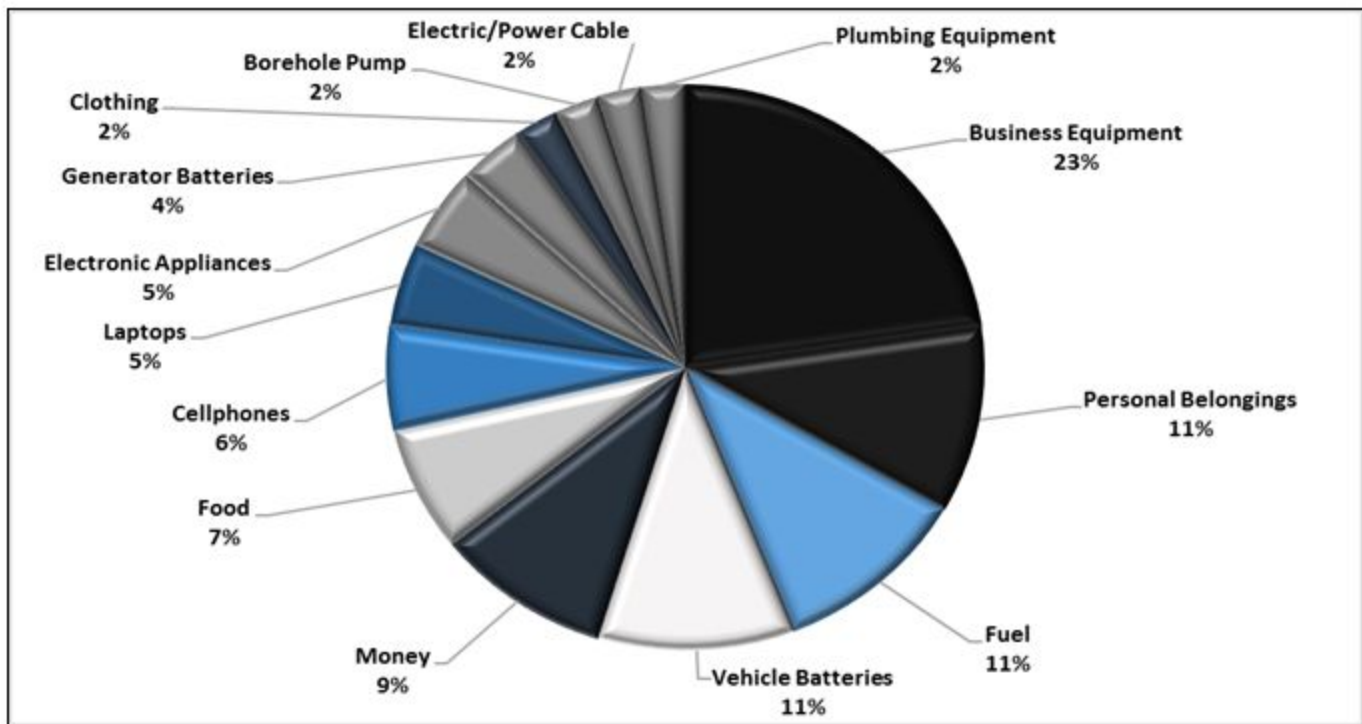

- Overall the number of reported incidents remains high , and with the further surge in inflation likely to remain so for the months ahead
- Break-in and theft incidents remain the most prevalent crimes; however, armed robberies remain a serious occurrence in the northern suburbs and most recently in the southern commercial premises in Hatfield.
  - In September 2019, more incidents reported the use of firearms as opposed to knives and catapults (with one incident reporting shots fired by suspects) indicating a rise in a more skilled group of criminals as well as a higher risk of violence.
  - If you would like an update on your security at home or business, or just an update on the crime in your area, please contact us at [info@safeguard.co.zw](mailto:info@safeguard.co.zw) and we will arrange a visit for you.
- Cash continues as the main target and we recommend the use of cash-in-transit vehicles to move money, and strongly advise that you do not store cash on your premises.
- The following areas are currently high risk. Increased vigilance is recommended.
