

1. JUNE 2019 OVERVIEW

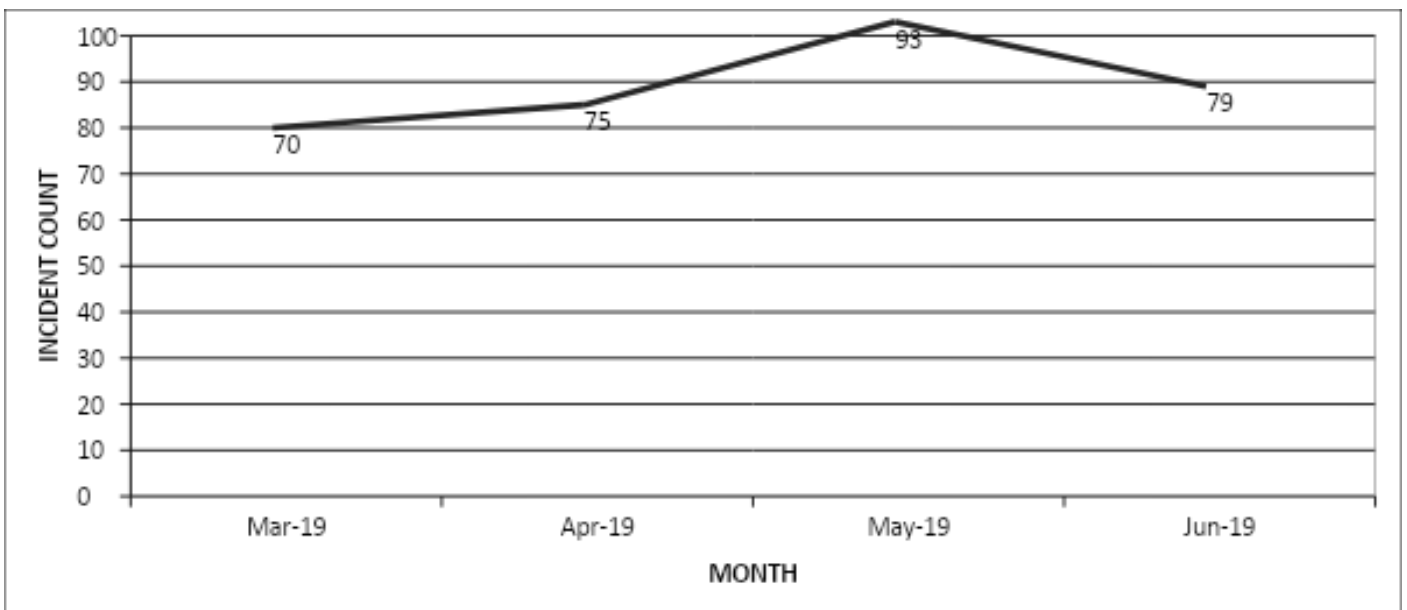

Unsurprisingly crime is up 3 fold on last year, but some good news is the slight reduction for June.

- Overall, a 15% decrease in incidents reported between May and June 2019. The current decrease in crime may be attributed to arrests reported in Emerald Hill, Westgate and Greendale (Harare) in the past month.
 - A temporary decrease in crime in one area often leads to an increase in another (crime displacement) and the following areas are listed as areas of concern with a need for increased security measures and vigilance:

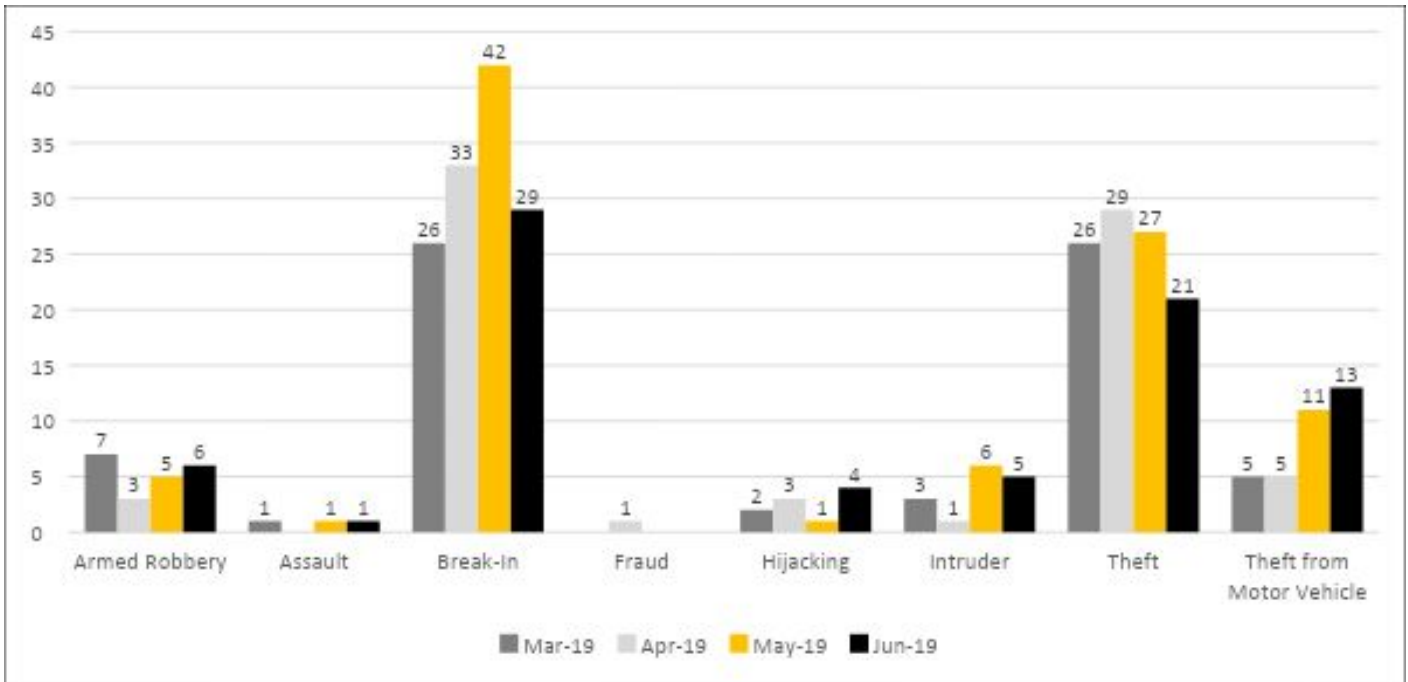

Harare	Bulawayo
Avondale (Theft from Motor Vehicles)	City Centre (Break-in)
Ballantyne Park (Armed Robbery)	Inyati (Theft, followed by Intruder)
City Centre (Break-ins, followed by Theft)	Steeldale (Theft and Break-ins)
Graniteside (Break-in and Theft)	
Greystone Park (Theft)	
Msasa (Break-in and Theft)	
Ruwa (Break-ins)	
Southerton (Theft, followed by Break-in)	
Sunway City (Break-ins and Theft)	

- Of the incidents reported, **females are currently vulnerable to theft incidents outside their premises and as such hypervigilance is advised when exiting or entering a premises.**
- Security systems rely on stable power and this is very difficult to manage at present with cuts of 18 hours per day on average. A Combination of the longer winter nights, poor or no lighting, and failing systems has increased the risk for all premises .
- A few measures to help combat this . No ZESA required
 - Make sure you have the SAFEGUARD SOS app on your phone – Its free for our customers at each premises.
 - Wireless battery operated external alarms _ we have in stock DIY or we can install for you
 - Wireless internal alarms
 - Make use of the alarm APP to control your system so that you can remotely control access, and nuisance alarms
 - External LED flood with sensor to activate on motion to give some light- available many hardware stores
 - Test your alarms systems regularly to ensure signal and sensors operating correctly.
 - Lock up early!
